12:45 – 1:45pm	Lunch
Breakout Sessions	(All sessions to run concurrently. Prior registration essential)
1:45 – 2:45pm	
Breakout One	Interventions using new technologies This session will outline three online interventions currently being developed and evaluated at NDARC: a web based intervention for young people with co-occurring depression and problematic alcohol use; an online intervention for risky drinkers facilitated by GPs; and an online prevention and intervention program for school students. This workshop is suitable for AOD clinicians and professionals keen to learn about emerging e-health interventions. Panel: Katrina Champion, Natasha Nair and Mark Deady Facilitator: Dr Frances Kay-Lambkin

Breakout Two	<p>Clinical Workshop: Three brief interventions for cannabis use disorder delivered within a clinical setting</p> <p>This workshop will outline three evidence based interventions that utilise cognitive-behavioural therapy and motivational interviewing. These interventions are based on findings of Australian randomised-controlled trials conducted by staff from the National Cannabis Prevention & Information Centre. This workshop is suitable for all clinicians and for healthcare practitioners who work in a variety of settings and services where clients present with cannabis use disorders. Participants will be made familiar with the various aspects of these interventions including screening, assessment, withdrawal and treatment.</p> <p>Facilitator: Etty Matalon (National Cannabis Prevention and Information Centre)</p>
Breakout Three	<p>Social determinants of drug and alcohol use</p> <p>Research suggests social factors including homelessness and socio-economic disadvantage are associated with higher levels of drug and alcohol use and greater difficulties reducing harmful use. This session addresses these social determinants via a discussion of two 'Housing First' housing programs for chronically homeless individuals, a trial addressing financial stress for low income smokers, and community-based interventions for Aboriginal people. This workshop is suitable for AOD clinicians and professionals keen to hear about new approaches to tackling social disadvantage.</p> <p>Panel: Elizabeth Whittaker, Dr Ryan Courtney and Alice Knight</p> <p>Facilitator: Professor Anthony Shakeshaft</p>
Breakout Four	<p>The cost effectiveness of OST and impact on criminal offending and mortality</p> <p>This session presents findings on young offenders' transitions between criminal activity, custody and opioid substitution therapy (OST); the cost-effectiveness of providing OST immediately post-release from prison; and the impact of OST on mortality post-release from prison. This workshop is suitable for those with an interest in the criminal justice system, harm reduction and drug policy.</p> <p>Panel: Dr Natasa Gisev, Professor Louisa Degenhardt and Dr Marian Shanahan</p> <p>Facilitator: Professor Michael Farrell</p>
2:45 – 3:10pm	Afternoon Tea (and poster viewing)
Session Four	Alcohol and violence / Facilitated discussion: Professor Michael Farrell (NDARC)
3:10 – 3:15pm	Poster winners announced
3:15 – 4:15pm	<p>Tackling the systemic causes of alcohol abuse: price, availability and cultural attitudes</p> <p>Professor Keith Humphreys (Stanford University)</p> <p>Professor Steve Allsop (National Drug Research Institute)</p> <p>Professor Maree Teesson (NDARC)</p> <p>Superintendent Pat Paroz (NSW Police)</p> <p>Ralph Kelly (Thomas Kelly Youth Foundation)</p> <p>Professor Don Weatherburn (NSW Bureau of Crime Statistics and Research)</p> <p>Dr Jan Marian Breckenridge (UNSW)</p>
4:15pm	<p>Closing Remarks</p> <p>Professor Michael Farrell</p>
