NDARC Symposium 2013 Posters

**Posters**

Neural markers for recovery in cannabis withdrawal
D. Allsop & J. Copeland

Mapping the trajectory of anxiety, depression & alcohol use across adolescence

Assessing mental health in old age: Investigating bias in the diagnostic instruments

Tailoring two evidence-based interventions for delivery to Aboriginal Australians: Perceptions of, and suggestions by, healthcare providers
B. Calabria, A. Clifford, M. Rose & A. Shakeshaft

A cross validation trial of the internet-based School: Alcohol and Cannabis course

The School Interactive (CSI) Study: Protocol of a cluster randomised controlled trial of the internet-based School: Ecstasy and Emerging Drugs Module
K. Champion, N. Newton & M. Teesson

A randomised clinical trial of a financial education intervention with nicotine replacement therapy for low socioeconomic status smokers – a protocol description
R. Courtney

Development of the DEAL project: A brief, online intervention for depression and alcohol misuse comorbidity in young people
M. Deady, M. Teesson & F. Kay-Lambkin

Cannabis and sleep
P. Gates & L. Albertella

Engagement with the criminal justice system among opioid-dependent people: Comparison between Indigenous & non-Indigenous offenders

Opioid substitution therapy in New South Wales 2001-2012: Comparison between buprenorphine and methadone users
N. Gisey, L. Degenhardt, T. Dobkins, S. Larney, B. Laranse, J. Kimber, A. Gibson & L. Burns

The therapeutic & above therapeutic use of paracetamol among chronic non-cancer pain patients

12-month follow-up of neurocognitive profiles of people with comorbid depression and alcohol use
S. Hunt, A. Baker & P. Micheie

Secondary effects of a personality-targeted substance misuse prevention intervention: Does the Preventure program influence bullying among Australian adolescents?

The diversion and injection of buprenorphine-naloxone film: Findings from the Australian post-marketing surveillance studies, 2012
B. Larance

Behavioural activation treatment for co-occurring depression and substance use disorder: The Activate Study protocol

A global systematic review of hepatitis C virus in prisons and other closed settings

Static and dynamic predictors of crime among a heroin-dependent sample over a three-year period

Rumination, depression and substance use: Findings from an Australian longitudinal study of heroin users

Associations between personality traits and alcohol misuse: A longitudinal study on an Australian adolescent population

Secondary effects of a universal internet-based program to prevent alcohol and cannabis use amongst Australian adolescents: Reducing truancy, moral disengagement and psychological distress
N. Newton & M. Teesson

Developing an online game on illicit drugs and related harms
D. Rodriguez, N. Newton & M. Teesson

Preventing adolescent substance use using the targeted ‘Preventure’ intervention: What do Australian students think?

Peer support and the potential for peer mentoring in a program for high risk youth in rural New South Wales
M. Snijder

Electrophysiological evidence of subtle deficits in recognition memory processes in young heavy drinkers and cannabis users
Janette Smith, Jaimie Iredale & Richard Mattick

Health related issues (injecting, BBVI and homeless) among people who inject drugs

Adolescent predictors of alcohol use disorders in young adults
W. Swift, T. Slade, L. Degenhardt, N. Carragher & G. Patton

The Climate Schools Combined (CSC) Study: Internet-based prevention for anxiety, depression and substance use in young Australians

Trends in and determinants of loss to follow up and early mortality in a rapid expansion of the antiretroviral treatment program in Vietnam: Findings from 13 outpatient clinics
D. A. Tran, A. Shakeshaft, A. D. Ngo, D. P. Wilson, C. Doran & L. Zhang

A developmentally-focussed approach to understanding the violent offending careers of injection drug users
M. Tye, S. Darke, F. Shand & S. Kaye

A preliminary examination of the long term outcomes for females with heroin dependence: Findings from the 11 year follow up of the Australian Treatment Outcome Study (ATOS)

**Posters + 5 min. presentation**

Comparison of adolescent alcohol use at baseline and first follow up: Results from the Drinking and Teens project

The burden of drug and alcohol presentations on hospital-based services
K. Butler & L. Burns

A managed alcohol program for Sydney’s homeless

“Trafficking” or “personal use”: Do regular injecting drug users understand Australian drug trafficking laws?
C. Hughes, A. Ritter & N. Cowdery

Bullies, victims and bully-victims: Internalizing and externalizing problems

Fetal alcohol exposure and developmental outcomes for children: A meta-analytic review
C. McCormack, R. Mattick, L. Burns & D. Hutchinson

Assess, Plan, Track and Tips (APPT): Developing and testing the first smartphone app for managing cannabis use
M. Norberg, S. Rooke, L. Albertella, J. Copeland, D. Kavanagh & A. Lau

The progression of drug and alcohol use, mental health and attachment through pregnancy and post-natally: Relationships and patterns
